

**Task № 1.** Choose the most suitable word to fill each space.

How do I figure (1) ... if a cookie is going to come out chewy or crunchy?

Just take (2) ... bite. Actually, all cookie recipes provide clues to the (3) ... result. It's all in (4) ... butter, shortening and sugar ratios.

All-butter recipes tend (5) ... a thin and crispy cookie. All-shortening recipes yield a soft, plumpish cookie. Brown sugar also (6) ... produce a soft cookie.

If you want a crisp cookie on the outside and a chewy-soft cookie on the (7) ..., go for a mix of butter and softening – and a combo of brown and (8) ... sugar.

The science behind it has to (9) ... the fact that butter melts faster than shortening, so – in a hot oven – buttery cookies spread (10) ... so they are thinner and crisper than shortening-based cookies.

- |                     |                  |                |              |
|---------------------|------------------|----------------|--------------|
| 1) A in             | B with           | C up           | D out        |
| 2) A a              | B the            | C an           | D --         |
| 3) A first          | B final          | C middle       | D second     |
| 4) A a              | B some           | C the          | D any        |
| 5) A to be produced | B being produced | C to produce   | D produce    |
| 6) A help           | B helps to       | C help to      | D helps      |
| 7) A outside        | B left side      | C inside       | D right side |
| 8) A white          | B blue           | C green        | D yellow     |
| 9) A do with        | B go out         | C find out     | D take after |
| 10) A more quick    | B quicker        | C more quickly | D quickest   |
